TAX RETURN EVOLUTION: NONRESIDENT to FRAUDULENT RESIDENT

How you and your legal identity were ILLEGALLY, CRIMINALLY, and UNCONSTITUTIONALLY kidnapped and transported to the federal zone as a privileged alien by obfuscating tax return forms.

1 **Introduction**

² The tax position of Sovereignty Education and Defense Ministry (SEDM) is founded on what we call the Nonresident Alien

³ Position. That position is exhaustively described in:

<u>Nonresident Alien Position</u>, Form #05.020 http://sedm.org/Forms/FormIndex.htm

- ⁴ This document provides evidence which proves the following:
- 5 1. When the income tax was first implemented in 1913 after the fraudulent ratification of the Sixteenth Amendment, 6 Americans in states of the Union began and were recognized as:
 - 1.1. Nonresident Aliens.
 - 1.2. STATUTORY aliens.
 - 1.3. NOT STATUTORY "citizens", or "citizens of the United States" as described and defined in 8 U.S.C. §1401.
 - 1.4. Constitutional Citizens.
- Through a pattern of constructive fraud using income tax return forms, "words of art" and false presumption facilitated
 by legal ignorance, the status of the Average American was fraudulently and illegally and unconstitutionally
 transformed from Nonresident Alien to STATUTOTY "citizen of the United States".
- 3. This illegal and fraudulent conversion of the status of the Average American:
- 3.1. Destroyed the separation of legislative jurisdiction between the states and the national govenrment. See:
 <u>Government Conspiracy to Destroy the Separation of Powers</u>, Form #05.023 <u>http://sedm.org/Forms/FormIndex.htm</u>
- 3.2. Made the average American FRAUDULENTLY APPEAR as a privileged resident alien completely subject to the
 exclusive jurisdiction of Congress.
 - 3.3. Destroyed the Constitutional rights of the average American.

What follows is a series of tax return forms derived from the national archives in Washington D.C. showing how income tax forms, "words of art", and fallacy through equivocation were used to accomplish the above CRIMINAL transformations. They show how the entire nation was systematically and effectively nationalized financially under the Federal Income Tax.

Notice there is no place to elect a status on the first page of the tax return. Also notice that on page 4 it states the following: 1. This return shall be made by every citizen of the United States, whether residing at home or abroad, and by every person residing in the United States, though not a citizen thereof, having a net income of \$3,000 or over for the taxable year, and also by every nonresident alien deriving income from property owned and business,

trade, or profession carried on in the United States by him. It is important to recognize that this form is to be filed by all classes of persons with a tax liability, with specific reference

8 to a "nonresident alien." It is also important to realize that under the American system of federalism, a "nonresident alien" 9 is a civil status that applies to both. 10

- 1. persons of foreign nationality who do not reside ANYWHERE within our nation, and 11
- 2. United States citizens who are domiciled in the 50 states. 12

The "United States citizen" referred to above is a political citizen either through the Fourteenth Amendment or an Act of 13 Congress, but for tax purposes is within a sub-class of "United States citizen" with a federal domicile. Conversely, a 14 "United States citizen" who has a domicile in one of the 50 states is a "nonresident alien" for tax purposes. This is why the 15 IRC proffers a definition which states "when used in a geographical sense." Otherwise, a political, or principle sense is to 16 be understood. This brilliant definition allows for status to be determined differently for persons of foreign nationality 17 versus States Citizens under the Constitution. 18

The difference in status stems from the reality of residual state sovereignty under Art. I, Sec. 8 legislation. See Printz v.

United States, 521 U.S. 898, 919 (1997).

INSTRUCTIONS.

1. This return shall be made by every citizen of the United States, whether residing at home or abroad, and by every person residing in the United States, though not a citizen thereof, having a *net income* of \$3,000 or over for the taxable year, and *also* by every *nonresident alien* deriving income from property owned and business, trade, or profession carried on *in the United States* by him.

2. When an individual by reason of minority, sickness or other disability, or absence from the United States, is unable to make his own return, it may be made for him by his *duly authorized* representative.

3. The *normal tax* of 1 per cent shall be assessed on the total net income less the specific exemption of \$3,000 or \$4,000 as the case may be. (For the year 1913, the specific exemption allowable is \$2,500 or \$3,333.33, as the case may 1 + 1 If, however, the normal tax has been deducted and withheld 1 + 1 y part of the income at the source, or if any part of the income, as received as dividends upon the stock or from the net earnings of any corporation, etc., which is taxable upon its net income, such income shall be deducted from the individual's total *net income* for the purpose of calculating the amount of income on which the individual is liable for the normal tax of 1 per cent by virtue of this return. (See page 1, line 7.)

4. The *additional or super tax* shall be calculated as stated on page 1.

5. This return shall be filed with the Collector of Internal Revenue for the district in which the individual resides if he has no other place of business, otherwise in the district in which he has his *principal place of business:* or in case the person resides in a foreign country, then with the collector for the district in which his principal business is carried on in the United States.

6. This return must be filed on or before the first day of March succeeding the close of the calendar year for which return is made.

7. The penalty for failure to file the return within the time specified by law is \$20 to \$1,000. In case of refusal or neglect to render the return within the required time (except in cases of sickness or absence). 50 per cent shall be added to amount of tax assessed. In case of *false or fraudulent return*, 100 per cent shall be added to such tax, and any person required by law to make, render, sign, or verify any return who makes any false or fraudulent return or statement with intent to defeat or evade the assessment required by this section to be made shall be guilty of a mis_meanor, and shall be fined not exceeding \$2,000 or be imprisoned and exceeding one year, or both, at the discretion of the court, with the costs of prosecution.

8. When the return is not filed within the required time by reason of sickness or at the of the individual, an extension of time, not exceeding 30 diametric for March 1, within which to file such return, *may be* granted by the collector. *provided* an application therefor is made by the individual within the period for which such extension is desired.

9. This return properly filled out must be made under oath or affirmation. Affidavits may be made before any officer *authorized* by law to administer oaths. If before a justice of the peace or magistrate: not using a seal, a *certificate of the clerk of the court as* to the authority of such officer to administer oaths should be attached to the return.

10. Expense for medical attendance, store accounts, family supplies, wages of domestic servants, cost of board, room, or house rent for family or personal use, *are not expenses that can be deducted from gross income.* In case an individual owns his own residence he can not deduct the estimated value of his rent, neither shall he be required to include such estimated rental of his home as income.

11. The farmer, in computing the net income from his farm for his annual return, shall include all moneys received for produce and animals sold, and for the wool and hides of animals slaughtered, provided such wool and hides are sold, and he shall deduct therefrom the sums actually paid as purchase money for the animals sold or slaughtered during the year.

When animals were raised by the owner and are sold or slaughtered he shall not deduct their value as expenses or loss. He may deduct the amount of money actually paid as expense for producing any farm products, live stock, etc. In deducting expenses for repairs on farm property the amount deducted must not exceed the amount actually expended for such repairs during the year for which the return is made. (See page 3, item 6.) The cost of replacing tools or machinery is a deductible expense to the extent that the cost of the new articles does not exceed the value of the old.

12. In calculating losses, only such losses as shall have been actually sustained and the amount of which has been definitely ascertained during the year covered by the return can be deducted.

13. Persons receiving fees or emoluments for professional or other services, as in the case of physicians or lawyers, should include all actual receipts for services rendered in the year for which return is made, together with all unpaid accounts, charges for services, or contingent income due for that year, if good and collectible.

14. Debts which were contracted during the year for which return is made, but found in said year to be worthless, may be deducted from gross income for said year, but such debts can not be regarded as worthless until after legal proceedings to recover the same have proved fruitless, or it clearly appears that the debtor is insolvent. If debts contracted prior to the year for which return is made were included as income in return for year in which said debts were contracted, and such debts shall subsequently prove to be worthless, they may be deducted under the head of losses in the return for the year in which such debts were charged off as worthless.

15. Amounts due or accrued to the individual members of a partnership from the net carnings of the partnership, whether apportioned and distributed or not, shall be included in the annual return of the individual.

16. United States pensions shall ¹ uded as income.

17. Estimated advance in value x estate is not required to be reported as income, unless the inc... ed value is taken up on the books of the individual as an increase of assets.

18. Costs of suits and other legal proceedings arising from ordinary business may be treated as an expense of such business, and may be deducted from gross income for the year in which such costs were paid.

19. An unmarried individual or a married individual not living, with wife or husband shall be allowed an exemption of \$3,000. When husband and wife live together they shall be allowed jointly a total exemption of only \$4,000 on their aggregate income. They may make a joint return, both subscribing thereto, or if they have separate incomes, they may make separate returns; but in no case shall they jointly claim more than \$4,000 exemption on their aggregate income.

20. In computing net income there shall be excluded the compensation of all officers and employees of a State or any political subdivision thereof, except when such compensation is paid by the United States Government.

2 3 <u>1916: Form 1040</u>

- ³ Then, in 1916, the Form 1040 underwent a little bit of a makeover.
- 4 On page 4, separate instructions for a "nonresident alien" were provided. To wit:

2. This return shall be made by every nonresident alien receiving any net income from sources in the United
States. A nonresident alien individual may receive the benefit of the personal exemption only by filing or
causing to be filed with the Collector of Internal Revenue a true and accurate return of his total income,
received from all sources, corporate or otherwise, in the United States.

However, there was essentially no change in the operation of the Form 1040 from the 1913-1915 version. A "United States
 citizen" and a "nonresident alien" alike would still file this form.

INSTRUCTIONS.

1. This return shall be made by every citizen of the United States, whether residing at home or abroad, and by every person residing in the United States, though not a citizen thereof, having a net income of \$3,000 or over, *including dividends*, for the taxable year, although the tax has been paid at the source and the return shows no tax liability.

2. This return shall be made by every *nonresident alien* receiving any net income from sources in the United States. A nonresident alien individual may receive the benefit of the personal exemption only by filing or causing to be filed with the Collector of Internal Revenue a true and accurate return of his total income, received from all sources, corporate or otherwise, in the United States.

3. When an individual by reason of minority, sickness, or other disability, or absence from the United States, is unable to make his own return, it may be made for him by his *duly authorized* representative.

4. This return should be filed with the Collector of Internal Revenue for the district in which the individual resides. In case the person resides in a foreign country then with the Collector for the district in which his principal business is carried on in the United States, and if there be no such place in the United States, then with the Collector of Internal Revenue at Baltimore, Maryland.

5. When the return is not filed within the required time by reason of sickness or absence of the individual, an extension of time, not exceeding 30 days from March 1, within which to file such return may be granted by the Collector, *provided* a written application therefor is made by the individual within the period for which such extension is desired.

6. An unmarried individual or married individual not living with husband or wife shall be allowed an exemption of \$3,000. When husband and wife live together they shall be allowed jointly a total exemption of only \$4,000 on their aggregate income. The head of a family shall be allowed an exemption of \$3,000 in favor of each ward, but in no event shall a ward be allowed a greater personal exemption than \$3,000 or, if married. \$4,000, from the amount of net income received from all sources. There shall be allowed an exemption of \$3,000 from the amount of \$3,000 from the period of administration or settlement, and of trusts or other estates the income of which is not distributed annually.

7. Amounts charged on line 32 for restoring property or making good the exhaustion thereof from its use in business, together with the amount claimed for depreciation on line 38, must not exceed the deterioration of the property in one year.

² 4 <u>1917-1920: Form 1040</u>

³ Now for the really suspicious evolution of the Form 1040: 1917-1920 (Four Years)

In these forms, all reference to tax status was removed, whether it be "United States citizen" or "nonresident alien." Think, out of sight--out of mind."

⁶ But, during this period, both a "United States citizen" as well as a "nonresident alien" were still expected to use this form.

7 The statuses were ignored, but the forms' complexity was increased, and the description of what was to be taxed was more 8 voluminous and imposing -- probably to bamboozle and intimidate. Think of a magician distracting you with one hand

9 (look at what all your taxed on), while sleight of hand is taking place simultaneously out of view with the other (pay no

attention to the difference between a United States citizen and a nonresident alien).

Meanwhile, the Brushaber ruling was now becoming a distant memory -- not to mention T.D. 2313 and its implications and revelations. You have to figure, the American public at large (like today) was oblivious to the differences between political citizenship and civil citizenship. Couple that with the "nonresident alien" and "United States citizen" omissions from these tax forms, and you have the truth being effectively and systematically relegated to the memory hole.

INDIVIDUAL INCOME TAX RETURN FOR CALENDAR YEAR 1917

INSTRUCTIONS

1. Persons Required to Make a Return of Net Income.

Every citizen of the United States, whether residing at home or abroad, and every person residing in the United States, though not a citizen thereof, whose net income for the calendar year 1917 (see Item O, page 4) amounted to \$1,000 if the individual is single or does not live with wife (or husband) or \$2,000 if he is married and lives with wife (or husband), is required to make a return.

If the combined income of husband and wife, living together, and dependent children equaled or exceed \$2,000, all such income must be reported, either on one return or on separate returns. Husband and wife should make separate returns if either is subject to surtax (see instruction 6).

Executors and administrators of the estates of deceased persons must make returns covering the part of the taxable year during which such persons were alive, and also returns for the estates during the period of settlement. If the income of a trust estate was distributed, the fiduciary should get a copy of Form 1041 and comply with the instructions thereon. If the income from a trust estate was not distributed, the fiduciary must make a return for the estate on this form.

Guardians must make returns for their wards. Duly authorized agents may make returns for persons who by reason of sickness or other disability or absence from the United States are unable to make their own returns.

2. Income Exempt from Tax.

The following kinds of income need not be reported on this return:

(a) Proceeds of life-insurance policies paid to individual beneficiaries upon death of the insured.

(b) The amount received by the insured as a return of premium or premiums paid by him under life insurance, endowment, or annuity contracts, either during the term or at the maturity of the term mentioned in the contract, or upon the surrender of the contract.

(c) The value of property acquired by gift, bequest, devise, or descent (but the income from such property should be included as income).

(d) Interest upon the obligations of a State or any political subdivision thereof.

(e) Interest upon the obligations of the United States, except, in the case of such obligations issued since September 1, 1917, upon the amount by which an individual's holdings exceed \$5,000 par value.

(f) Interest upon obligations of the possessions of the United States.

(g) Interest upon securities issued under the provisions of the Federal Farm Loan Act of July 17, 1916.

(h) The compensation of all officers and employees of a State, or any political subdivision thereof, except when such compensation is paid by the United States Government.

3. Personal Exemption.

A single person or a married person not living with wife or husband and having no dependents is entitled to a personal exemption of \$1,000.

A married person living with wife or husband, or a head of family, is entitled to a personal exemption of \$2,000, plus \$200 for each child dependent upon him or her, if under 18 years of age or incapable of self-support because mentally or physically defective.

A "head of family" is a person who in accordance with some moral or legal obligation actually supports and maintains one or more individuals closely related to him or her by blood, marriage, or adoption.

The amount by which the net income exceeds the foregoing exemption is subject to a normal tax of 2 per cent under the act of October 3, 1917. further exemption of \$2,000 is allowed before computing the normal tax of 2 per cent imposed by the act of September 8, 1916.

If a husband and wife make separate returns, their total exemption may be claimed by either (but not by both), or it may be divided between them.

The exemption is determined by the individual's status on December 31, 1917. A deceased individual's exemption is determined by his status at the time of his death.

An estate or trust paying income tax is entitled to an exemption of \$1,000.

4. Tax Withheld at Source.

No credit should be claimed in this return for tax withheld on any income except 2 per cent of the interest on tax-free-covenant bonds (see Item 31, page 4). If tax on any other income has been withheld (except from nonresident aliens), the law provides that it shall be paid over by the withholding agent to the person from whom it was withheld.

5. Basis of Return of Income.

This return must show the income actually received and expenses actually paid during the year, unless the taxpayer keeps accounts (available for examination by internal revenue officers) showing income accrued and expenses incurred.

6. Surtax.

If your total net income (Item O, page 4) exceeds \$5,000 you are subject to a surtax on the amount of net income in excess of \$5,000 at a rate dependent on the amount of your total net income. To compute the amount of surtax, use the table and instructions at the bottom of this page.

7. Excess Profits Taxes.

If your net income reported under A on page 3 exceeded \$6,000, you are subject to an excess profits tax at the rate of 8 per cent on the amount by which the net total under A exceeds \$6,000.

If your total net income from all sources exceeded \$6,000 and you received any income from a trade or business with invested capital, you should get a copy of the excess profits tax retum (Form 1101), and calculate the amount of your tax, if any, as directed therein.

Enter the amounts of your excess profits taxes, if any, as Items 34 and 35, page 4, and their total as Item L, page 4.

For further instructions, see the Excess Profits Tax Regulations.

8. Affidavit.

The affidavit must be executed by the person whose income is reported unless he is a minor or unless he is ill, absent from the country, or otherwise incapacitated, in which case an agent may execute the affidavit.

The oath will be administered without charge by any collector or deputy collector of internal revenue or (if you are in the military or naval service of the United States) by any military or naval officer who is authorized to administer oaths for purposes of military or naval justice and administration. If you are not in the military or naval service and an internal revenue officer is not available, the return should be sworn to before a notary public, justice of the peace, or other person authorized to administer oaths.

It is not necessary to show the statement of net income or of tax due to the officer who administers the oath.

9. What Form Should be Used.

An individual whose net income for 1917 did not exceed his personal exemption by more than \$2,000, and also did not exceed \$5,000, may use the smaller return form (1040-A) instead of this form (1040). For copies of Form 1040-A or additional copies of Form 1040, inquire of your collector of internal revenue or at your post office or bank.

10. When the Return Must be Made.

This return must reach the collector's office on or before March 1, 1918.

The collector of internal revenue may, in case of sickness or absence of the individual, grant an extension of time not exceeding 30 days from March 1, 1918, provided a written application therefor is made within the period for which such extension may be granted.

The Commissioner of Internal Revenue is authorized to grant a reasonable extension of time for any reason he considers adequate.

11. Where the Return Should be Sent.

The return should be delivered or mailed to the collector of internal revenue for the district in which the individual resides.

If the individual has no residence in the United States the return should be sent to the collector for the district in which his principal business is carried on in the United States.

If the individual has neither residence nor place of business in the United States, the return should be sent to the collector of internal revenue at Baltimore, Md.

It is suggested that a copy of the return be retained.

12. When and to Whom Tax Must be Paid. You may pay your tax by sending cash, check, or money order with this return to the collector

of internal revenue. You must pay it on or before June 15, 1918, to the collector to whom the return is sent.

13. Information at Source.

Every individual, firm, or corporation who during 1917 paid to another person salary, wages, interest, commissions, rentals, etc., of \$800 or more, is required to make a true and accurate return to the Commissioner of internal Revenue showing the nature and source of such payments and the name and address of the person receiving them. Forms for reporting such information will be furnished by any collector of internal revenue.

DETAILS OF TAXABLE INCOME

All income must be reported gross, except income received from partnerships or through fiduciaries, which should be reported net.

Income of any kind amounting to \$800 or more received from any one source, or any income regardless of amount received from a partnership or through a fiduciary, should be reported separately, together with the name and address of the person, association, corporation, partnership, or fiduciary from whom received.

Your share of partnership profits should be reported under H, page 4, except the part of such profits which was originally derived (1) from interest on obligations of the United States issued since September 1, 1917, held by the partnership in excess of \$5,000 par value (to be entered under E); (2) from dividends on stock of domestic and resident corporations (to be entered under F); and (3) from interest on securities not subject to Federal income tax.

If the partnership's fiscal year differs from the calendar year so that a part of the fiscal year fell within the calendar year 1916, a proportionate part of your share of the partnership profits for the

A. INCOME FROM SALARIES, WAGES, COMMISSIONS, BONUSES, DIRECTORS' FEES, AND PENSIONS, AND FROM PROFESSIONS.

Salaries, wages, etc., paid by States or political subdivisions thereof and gifts not forming part of your compensation for services rendered should not be reported.

Expenses charged against your compensation or professional income should be explained on the blank lines marked "Explanation of deductions."

Report income under B only if you are engaged in farming or in business for yourself. Do not report here your share of partnership profits.

Report under C sales of land, buildings, equipment, stocks, bonds, and other property not connected with your regular business, and sales of your business plant and equipment.

If you have a complete profit and loss statement, showing all the information called for under "Cost of goods sold" and "Other business deductions," you may attach it to page 3 of this return and enter the amount of net income under B, page 3.

Gross sales and income from business services.--individuals deriving income from the sale of merchandise or of products of farming, manufacturing, mining, or construction should report the total amount of such sales less any discounts or allowances from the sale price. Income from business services such as transportation, storage, etc., carried on with invested capital, should also be reported here.

Cost of goods sold .- If you make inventories of merchandise or securities, state under "Explanations" the basis on which such inventories are made; that is, whether (a) at cost or (b) at cost or market value, whichever is lower.

If in your books of account you do not regularly inventory unsold goods or securities on hand, make no entries referring to inventories, but use one of the following methods:

(1) Report as cost of goods sold the total cost of goods purchased or produced during the year. This method may be used by manufacturers and dealers in merchandise, but not by dealers in real estate or securities.

(2) Report the cost of the particular articles sold during the year, in accordance with the instructions under C. This method may be used by dealers in real estate and securities.

Taxes.—See instructions under J. below

Repairs .- Ordinary repairs, required to keep property in usable condition, are deductible. Replacements, on the other hand, may not be deducted, unless no deduction for wear and tear or depreciation has been claimed. Expenditures for permanent improvements are not deductible under this or any other heading.

This item should be explained in the table at the bottom of page 3.

Wear and tear.--- A deduction may be claimed on account of wear and tear or depreciation during the year of property used exclusively in business or trade, only to the extent that such wear and tear or depreciation is not covered by deductions claimed in this return or in previous returns for repairs, replacements, and iosses. The amount claimed for wear and tear or depreciation should not exceed the original cost of the property divided by its total estimated life in years. When the amount of depreciation allowed equals the cost of the property, no further claim should be made.

Do not claim any deduction for depreciation in the value of a building occupied by the owner as his dwelling, or of other property held for personal use. Do not claim any deduction for

C. PROFITS FROM SALE OF REAL ESTATE, STOCKS, BONDS, AND OTHER PROPERTY.

Sales connected with your regular business should be reported under B, unless they would thereby become confused with sales of merchandise whose cost is computed by a different method (see "Cost of goods sold," under B, above).

If the profits or losses on sales made through any one broker aggregated \$800 or more, report the transactions on a separate line with the name and address of the broker.

Kind of property.—Describe the property as definitely as you can in a word or two, as "farm," "dwelling," "stocks," "bonds," etc.

Cost .- If the property was acquired before March 1, 1913, report the estimated market value

D. INCOME FROM RENTS AND ROYALTIES.

Kind of property.—Describe briefly, as "farm," "dwelling," "mine," and also state kind of material of which buildings (if any) are constructed as "brick" or "wood."

Amount of rent.-If tenant rents your farm on a cash rental basis, state the amount of the rent, whether paid in cash or in crops. If he works it on shares, report your share as income in your

E. INTEREST ON BONDS AND OTHER OBLIGATIONS OF THE UNITED STATES ISSUED SINCE SEPTEMBER 1, 1917.

Exemption .--- No return should be made of interest on any amount of such obligations up to and including \$5,000, par value, owned by one individual. The benefit of this exemption may be claimed in this return not only on behalf of the individual making this return, but also on behalf of wife, husband, or any member of the family owning such obligations whose income has been included in this return.

F. DIVIDENDS ON STOCK OF CORPORATIONS ORGANIZED OR OPERATING IN THE UNITED STATES AND SUBJECT TO INCOME TAX.

B above

Dividends which were paid out of profits or surplus accumulated by the distributing corporation prior to the year for which this return is made but not prior to March 1, 1913, should be reported under the year in which the profits or surplus was accumulated.

fiscal year (with the exceptions noted), assignable to the calendar year 1916 should be entered under H in the column for deductions, and the balance in the final column. The total of these two amounts should be entered in the column for "Gross income." For normal tax, partnership profits assignable to 1916 but received in 1917 should be added to Item 27, page 4. For surfax, they should be added to dividends (if any) accumulated in 1916, and treated as directed for such dividends under F, below. Dividends received through a partnership should be reported (like other dividends) under F for the year in which accumulated, regardless of the fiscal year of the partnership.

If income reported on this return was received by wife (or husband), or child, enter it in the same manner as your own income and write the word "wife," "husband," or "child," on the line on which the income is reported.

If this form has not space enough for all entries, make additional entries on a separate sheet of paper and attach it securely to page 3 or 4.

State whether the salaries, etc., were received by yourself, wife (or husband), or child.

Brokers and commission merchants should report their income under B if they buy and sell on their own account, advance money to their customers, or in any way use more than a nominal capital in their business.

B. INCOME FROM BUSINESS (INCLUDING FARMING).

depreciation of real estate (exclusive of improvements thereon), nor for depreciation of stocks, bonds, and other securities.

This item should be explained in the table at the bottom of page 3.

Depreciation of patents, copyrights, etc., and depletion of mines, etc.---if you wish to claim a deduction on account of depreciation in the value of patents, copyrights, franchises, and other legal privileges, or on account of depletion of mines and oil and gas wells, see paragraphs 7 and 8, section 5a, of the act of September 8, 1916, and the regulations thereunder, or communicate with your collector of internal revenue.

Property losses .- Report only losses of property used in your business or trade from fire, storm, shipwreck, or other casualty, or theft, not covered by issuance and not offset by repairs or replacements reported. The property lost should be valued at cost less depreciation to date of loss.

Any such losses of property not used in your business, such as your dwelling or household furniture, should be reported under J, "Other deductions," on page 4.

Do not report any losses for which a claim against an insurance company is pending. Wait until the claim is settled and deduct from the cost of the property, less depreciation, the amount of insurance collected. Report the net loss, if any, in the return of income for the year in which the settlement by the insurance company is made.

This item should be explained in the table at the bottom of page 3.1

Bad debts.--Report only debts which you have ascertained to be worthless and have charged off during the year.

A bad debt offsetting income accrued since March 1, 1913, will not be allowed as a deduction unless the amount was reported as income for the year in which the debt was created.

State under "Explanations" how the debts were ascertained to be worthless. Insolvency of the debtor, inability to collect by legal proceedings, or inability of debtor to pay, ascertained by a mercantile agency, would be a sufficient indication of worthlessness.

If at any future time a debt charged off as worthless and allowed as a deduction is collected the amount collected must be returned as income for the year in which received.

Unpaid debts are not deductible if made good by recovery of property sold or retention of property pledged.

Bad debts arising out of personal loans should be reported under J, "Other deductions."

Other expenses .--- Do not include any personal, living, or family expenses.

Do not deduct interest on your own investment in your business or farm, or salary for your own services or services of your family, unless these items are entered as income elsewhere on this return or in other returns.

on that date instead of the cost and explain the basis of your estimate.

return for the year in which it is sold.

Expenses incidental to the purchase of property may be included in the cost if never claimed in income-tax returns as a deduction from income.

Losses .- If total cost of all property sold exceeded total sale price, the loss will not be allowed as a deduction unless the sales out of which the loss arose were connected with your regular business. If a deduction is claimed on account of losses reported under C, explain what connection the sales had with your regular business and enter the amount of the loss under J, "Other deductions.

Repairs, wear and tear, and property losses .- See instructions relating to repairs, wear and

GENERAL INSTRUCTIONS—INDIVIDUAL RETURN

I. PERSONS REQUIRED TO MAKE A RETURN OF INCOME.

1. Return of net income must be filed by every citizen of the United States whether residing at home or abroad, and every person residing in the United States, though not a citizen thereof, whose net income for the taxable year 1919 amount to— (a) \$1,000 if single or if married and not living with wife (or husband). income is not sufficient to incur tax liability. Note especially credits for personal exemption and dependents under Instruction VI on this page.

3. If the combined income of husband, wife and dependent minor children equaled or exceeded \$2,000, all such income must be reported either on a joint return or on separate returns of husband and wife. II. PERIOD TO BE COVERED BY RETURN,

1. You were required to file your return for 1918 on the basis of your annual accounting period. Having established an accounting period for 1918 this period must be adhered to in 1919, unless permission was received from the Commissioner to make a change. A person having no fiscal year must file a return on the basis of a calendar year. 2. The dates on which the period covered by the return begins and ends, if other than a calendar

year, must be plainly stated at the head of the return, and answers to questions 5, 6 and 7 most be given accordingly.

III. ACCRUED OR RECEIVED INCOME.

1. If you keep books showing income accrued and expenses incurred during the year, make your return from your books, but do not fail to include all your income, even if it is not entered in your

books. 2. If you do not keep books showing income accrued and expenses incurred, report income received and expenses paid.

3. If you report income accrued, you must include all income that accrued in the taxable year even though not actually received.

4. If you report income received, you must include all income constructively received, such as bank interest credited to your account.

IV. ITEMS EXEMPT FROM TAX.

The following items are exempt from Federal income tax. However, nontaxable income of the classes described in paragraphs 1, 3, 4, 5 and 6 below should be reported in Item 11, page 1 of the return.

Proceeds of life insurance policies paid upon the death of the insured to individual beneficiaries or the estate of the insured,

10. Amounts received by the insured under life insurance, endowment, and annuity contracts, provided such payments do not exceed the premiums paid in. The amount by which the total payments that have been received exceed the total premiums paid in is income, and must be reported in Schedule

11. Amounts received from accident and health insurance and under workmen's compensation acts plus the amount of any damages received by suit or agreement on account of injuries or sickness. 12. Compensation paid by a State or political subdivision thereof to its officers or employees.

V. FARMER'S INCOME SCHEDULE.

If you are a farmer or a farm owner renting your farm out on shares, obtain from the collector and fill out Form 1040F "Schedole of Farm Income and Expenses," and attach it to this return. Transfer the net farm income to line 22 of Schedole A of the return. Report income from salaries, rents, interest, sales of property, etc., in Schedules B to G of the return.

VI. CREDITS FOR PERSONAL EXEMPTION AND DEPENDENTS.

 If you were married and living with your wife (or husband) or were head of a family on the last day of your taxable period, you may subtract from your net income, before calculating your pormal tax, an exemption of \$2,000 plus \$300 for each person under 18 (or mentally or physically defective) who was receiving his chief support from you on that date. If husband and wife make separate returns, this exemption may be claimed by either (but not by both) or may be divided between them. 2. If you were not married or did not live with wife (or husband) and were not head of a family

on the last day of your taxable period, you are entitled to a personal exemption of \$1,000 plus \$200 for each dependent person under 18 (or mentally or physically defective) who was receiving his chief support from you on that date.

3. If by reason of a change in your accounting period you make a return for a part of a year, your personal exemption shall be as many twelfths of the amount that would be allowed for a full year as there are months in the period covered by the return.

4. The personal exemption must be reported on line 23, page 1 of the return, and must be supported by answers to questions 5, 6 and 7. 5. A "head of family" is a person who is the chief support of one or more persons living in his

VIL AFFIDAVIT.

1. The affidavit must be executed by the person whose income is reported unless he is a minor or incompetent, or unless he is ill, absent from the country, or otherwise incapacitated, in which case the legal representative or agent may execute the affidavit. However, a minor making his own return may execute the affidavit.

2. The oath will be administered without charge by any collector, deputy collector or internalrevenue agent, or (if you are in the military or naval service of the United States) by any military or naval officer who is authorized to administer oaths for purposes of military or naval justice and administration. If an internal-revenue officer is not available the return should be sworn to before a notary public, justice of the peace, or other person authorized to administer oaths.

VIII. WHEN AND WHERE THE RETURN MUST BE FILED.

1. If the return is for the calendar year 1919, file it with the collector of internal revenue for the district in which you live or have your principal place of business, on or before March 15, 1920. If for a period other than a calendar year, the return should be filed on or before the 15th day of the third month following the close of such period.

2. In case the taxpayer has no legal residence or place of business in the United States, the return should be forwarded to the Collector of Internal Revenue, Baltimore, Md. 3. If the address of the collector is not printed on the return and you do not know it, ask at the

4. The total tax may be paid at the time of filing the return, or if not so paid, one installment may be paid and the balance may be paid in installments, or in full, on or prior to any subsequent installment date referred to above. For Failing to Pay Tax when Due, or Understatement of Tax Through Negligence. Five per cent of the tax due but unpaid, plus interest at the rate of 1 per cent per month during the period in which it remains unpaid.

NET LOSSES.—If for any taxable year beginning after October 31, 1918, and ending prior to January 1, 1920, it appears upon the production of evidence satisfactory to the Commissioner that any taxpayer has sustained a net loss, the amount of such net loss shall under regulations prescribed by the Commissioner with the approval of the Secretary be deducted from the net income of the taxpayer for the preceding taxable year; and the taxes imposed by this title and by Title III for such preceding taxable year shall be redetermined accordingly. Any amount found to be due to the taxpayer upon the basis of such redetermination shall be credited or refunded to the taxpayer in accordance with the provisions of section 252. If such net loss is in excess of the net income for such preceding taxable year, the amount of such excess shall under regulations prescribed by the Commissioner with the approval of the Secretary be allowed as a deduction in computing the net income for the succeeding taxable year. (See Articles 1601-1603, Regulations 45.)

INSTRUCTIONS FOR FILLING IN INDIVIDUAL INCOME TAX RETURN Page 2 of Instructions

If the space provided on this form is not sufficient for all entries, make additional entries on a separate sheet of paper and attach it securely to the return

A. INCOME FROM BUSINESS OR PROFESSION.

Report here income from-

(a) Sale of merchandise, or of products of manufacturing, construction, mining, and agricul-ture. (For farm income see Instruction V on the reverse side of this sheet.)

(b) Business service, such as transportation, storage, laundering, hotel and restaurant service. fivery and garage service, etc., if you owned the business. If you were engaged in the business as

an employee, report your salary or wages in Schedule B. (c) A profession, such as medicine, law, or dentistry, if you practiced it on your own account. If you were employed on a salary, report your salary in Schedule B. In general, report in Schedule A any income in the earning of which you incurred expenses

for labor, rent, etc. Do not report here partnership profits or profits of personal service corporations. which should be entered under C, or dividends from other corporations, which should be entered

If you are a farmer (or a farm owner renting your farm to another person on shares), enter on line 22 your net income from farming, as shown by your "Schedule of Farm Income and Expenses." Form 1040 F.

If you keep books showing income accrued, report such income instead of cash received.

and report expenses incurred instead of expenses paid. Income received from sale of lands, buildings, equipment, stocks, bonds and other property not dealt in as a business, and from liquidating dividends, should be reported under D.

If you have a complete profit and loss statement, showing all the information called for under "Cost of goods sold" and "Other business deductions," attach it to the return and enter the amount of net income on line 22, Schedule A.

Kind of business.—State kind of goods dealt in or kind of services rendered, and whether manufacturer, jobber, wholesaler, retailer, importer, broker, etc. Total sales and income from business or profession.—Report the total amount derived

from sales or from services, less any discounts or allowances from the sale price or service charge. Inventories.—Write "C" or "O or M" on lines 8 and 10 immediately before the amount column, to indicate that inventories are valued at either cost, or cost or market, whichever is lower.

Inventories at the end of the taxable period must be valued on the same basis as those at the end of the preceding taxable period, unless permission to make a change has been first obtained from the Commissioner. If claims for losses on inventories or rebates on sales made under Section

214(a) 12 of the Act have been allowed, the opening inventory must be correspondingly adjusted.
 (See Articles 266, and 1581-1585, Regulations 45).
 Other business deductions.—Do not include cost of business equipment or furniture.

expenditures for replacements or for permanent improvements to property, or living and family expenses

Salaries. -Enter as Item 12 all salaries and wages not reported as "Labor" under "Cost of goods sold." Salary or wages for your own services or the services of your dependent minor children if deducted must be reported as income in Schedule "B".

Rent .-- Enter as Item 13 rent on business property in which you have no equity. Do not include rent for dwelling you occupy for residential purposes.

Interest.-Enter as Item 14 interest on business indebtedness to others. Do not include interest on your capital investment in or advances to the business

Taxes.--Enter as Item 15 only taxes on business property or for carrying on business. Do not include taxes assessed against local benefits of a kind tending to increase the value of the property assessed, as for paving, sewers, etc., nor Federal income taxes.

Repairs, wear and tear, obsolescence, and property losses.—Enter as Item 16, (a) ordinary repairs required to keep property in usable condition. (b) reasonable allowance for exhaustion. wear and tear of property used in the trade or business, including a reasonable allowance for obsolescence, and (c) losses of business property by fire, storm, or other casualty, or theft, not compensated for by insurance or otherwise and not made good by repairs claimed as deductions.

Explain these deductions in table at foot of page 2 of return. Losses due to causes enumerated under (c) with respect to property not used in your business, such as your dwelling or personal property, should be reported in Schedule I.

The amount claimed for wear and lear (depreciation), including obsolescence, should not exceed the original cost of the property (or its value March 1, 1913, if acquired before that date) divided by its estimated life in years. If obsolescence is claimed, state in table at foot of page 2 why useful life is less than actual life. When the amount of depreciation and obsolescence allowed equals the cost of the property (or its value March 1, 1913), no further claim should be made. Do not claim any deduction for depreciation in the value of a building occupied by you as

a dwelling, or of other property held for personal use. Do not claim any deduction for depreciation of real estate (exclusive of improvements thereon), nor for depreciation of stocks, bonds, and other securities

Depreciation of patents, copyrights, etc., and depletion of mines, etc .-- If you claim a deduction on account of depreciation in the value of patents, copyrights, franchises and other legal privileges, or on account of depletion of mines or oil and gas wells, see Regulations 45. Amortization of war facilities.—If amortization of war facilities is claimed, the taxpayer is

required to submit with this return the information and schedules called for in Articles 181 to 188 of Regulations 45

Bad debts .- Enter as Item 18 only debts arising from sales or professional services which you have ascertained to be worthless and have charged off during the year. A bad debt offsetting income accrued since March 1, 1913, will not be allowed as a deduction

unless the amount was reflected in the income reported for the year in which the debt was created. In the case of debts existing prior to March 1, 1913, only their value on that date may be deducted upon subsequently ascertaining them to be worthless.

State under "Explanation of deductions," at the foot of the page, how the debts were ascertained to be worthless. Insolvency of the debtor, inability to collect by legal proceedings, or inability of debtor to pay as ascertained by a mercantile agency, would be a sufficient indication of worthlessness.

A debt previously charged off as bad must be returned as income for the year in which collected.

Bad debts arising out of personal loans should be reported in Schedule L

Net loss,-If the net cost of goods sold plus other business deductions is in excess of the total amount of sales and income from business or professional services, report the difference as a loss by using red ink or a minus sign.

of the net income computed without the benefit of this deduction. Therefore, if Item 4, Schedule

I, exceeds 15 per cent of the sum of Item 21, page 1, plus Item 4, then Item 4 must be reduced

to 15 per cent of such sum and your total net income must be recalculated accordingly.

B. INCOME FROM SALARIES, COMMISSIONS, BONUSES, DIRECTOR'S FEES AND PENSIONS.					
If salary, wages, or other compensation received by yourself or dependent minor children from outside sources was at the rate of \$1,000 or more per annum, report on separate lines, together with the occupation or position and employer's name and address. The total of all other income from salaries, wages, commissions, etc., should be reported on a separate line.	Do not report here pay, not exceeding \$3,500, for active service in the military or naval forces of the United States received during the taxable year prior to the termination of the present war as fixed by proclamation of the President.				
C. INCOME FROM PARTNERSHIPS, PERSONAL	SERVICE CORPORATIONS, AND FIDUCIARIES.

Do not include the part of such share that consisted of dividends on stock of corporations (to be included in Item K(a)), interest on obligations of the United States (see table 13, page 1 of the return, and instructions under K(h), below), or interest on corporation bonds containing a tax-free covenant received through fiduciaries, upon which a tax of 2 per cent was paid (or will be paid) by the debtor corporation (to be included in Item F). No withholding of income tax at the source with respect to interest upon tax-free covenant bonds owned by partnerships and personal service corporations was required prior to February 25, 1919. Report in Schedule B salary received from partnership or personal service corporation. Apportionment of partnership income between years.—If you derived income from a partnership or personal service corporation whose fiscal year differed from the calendar year, assign	to 1918 as many twelfths of your share of such income (except dividends and Liberty Bond interest received through the partnership or personal service corporation) as the number of months of the fiscal year that fell in the calendar year 1918. Assign to 1919 the remainder of your share of such income, except stock dividends and Liberty Bond interest, which should be apportioned as provided in instructions under K(a) and K(b) below. In the case of income to be distributed to the beneficiaries periodically, whether or not at regular intervals, each beneficiary must include in his return his distributive share of the net income, even though not yet paid him. If the taxable year on the basis of which he makes his return fails to coincide with the annual accounting period of the estate or trust, then he should include in his return his distributive share for such accounting period ending within his taxable year, which income will be taxable at the rates for the year in which the income was received.				
D. PROFIT FROM THE SALE OF LAND, BUILDINGS, STOCKS, BOND					
If the profits or losses on sales made through any one broker aggregated \$1,000 or more, report the transactions on a separate line with the name and address of the broker. Kind of property. —Describe the property as definitely as you can in a word or two, as "farm," "house," "lot," "stocks," "bonds." Cost. —Enter the original cost of the property, or, if it was acquired before March 1, 1913.	its fair market value on that date. Attach statement explaining how value of March 1, 1913, was determined. Expenses incidental to the purchase may be included in the cost if never claimed in income tax returns as deductions from income. Enter in column 7 the amount of wear and tear, obsolescence, or depletion sustained since March 1, 1913 (or since date of acquisition, if subsequent to March 1, 1913). Losses.—If the total of columns 5 and 6 is in excess of the total of columns 3 and 7, report the difference as a loss by using red ink or a minus sign.				
E. INCOME FROM REM	ITS AND ROYALTIES.				
Kind of propertyDescribe briefly, as in D. RentIf you received property or crops in lieu of cash rent, report the income as though the rent had been paid in cash. Other expenses.—Report taxes on rented or leased property and interest on indebtedness incurred or continued to purchase or carry it. Do not include taxes assessed against local benefits of a kind tending to increase the value of the property assessed.				
F. INTEREST ON CORPORATION BONDS CONTAINING TAX-FREE COVE					
This item should include all interest received directly or through fiduciaries on bonds of corporations organized or doing business in the United States, containing a clause by which the debtor corporation agrees to pay the interest without any deduction for taxes, provided exemption from withholding was not claimed by the owner of the bonds. If exemption was claimed (by filing	a yellow certificate. Form 1001), the interest received must be reported in G. The amount of tax paid by the debtor corporation is treated as a credit against the tax due. (See Item 40, page 1 of the return), but such amount paid at the source should be reported as income in Schedule G, line 4.				
G. OTHER INCOME (NOT INCLUDING DIVIDENDS, OR INTEREST ON OBLIGATIONS OF THE UNITED STATES). Report in this schedule interest on bank deposits, notes, mortgages, etc., and all other taxable income for which no place is provided elsewhere on this return.					
I. GENERAL D					
Interest. —Report here interest paid on personal indebtedness as distinguished from business	rehabilitation. The total amount of contributions to be entered here must not exceed 15 per cent				

indebtedness (which should be reported under A or E above). Do not include interest on indebtedness incurred for the purchase of bonds and other obligations, the interest on which is exempt from tax, except interest on indebtedness incurred to purchase or carry obligations of the United

Taxes.—Report here personal taxes paid, and all taxes on property not used in business or profession, not including those assessed against local benefits of a kind tending to increase the value of the property. Do not include Federal income taxes, nor estate or inheritance taxes. Losses.—Report here losses of property not connected with your trade, business, or profes- sion, sustained during the year from fire, storn, shipwreck, or other casualty, or from theft, which were not compensated for by insurance or otherwise. Do not include losses from transactions not entered into for profit. Losses claimed should be explained in table at foot of page 2. Contributions.—Report here only contributions made within the year to corporations organ- ized and operated exclusively for religious, charitable, scientific or educational purposes, or for the prevention of cruelty to children or animals, and contributions to the special fund for vocational	Enter under "Explanation of deductions." at the foot of page 2 of the return, the name and address of each corporation to which you made contributions claimed as deductions, and the amount paid to each. Bad debts and other deductions. —Bad debts arising out of loans should be reported here, and other proper deductions not claimed elsewhere. Attach detailed statement of all such deductions. Deductions claimed by traveling salesmen to cover meals and lodging should be fully explained in an attached statement setting forth conditions of employment. Amounts paid to beneficiaries. —If this return is filed for an estate in the process of administration, there may be deducted the amount of any income properly paid or credited to any legatee, heir or other beneficiary.
K(a). DIV	IDENDS.
Enter as Item K(a) all cash or stock dividends received during the year except (a) dividends paid by personal service corporations out of earnings accumulated subsequent to December 31.	1917: and (b) stock dividends received during the taxable year which are included in Item 12, columns 3, 4, and 5, page 1.
K(b). INTEREST ON OBLIGATIONS OF THE UNIT	ED STATES ISSUED SINCE SEPTEMBER 1, 1917.

² 5 <u>1921: Form 1040</u>

- ³ But in 1921, the transformation and exile of the people was nearly complete.
- ⁴ For the first time, we see on page 1 the following question:

Are you a citizen or resident of the United States?

How many Americans (including those domiciled in the 50 states) answered "Yes" to this question? Probably 99% or
 more. This simple affirmation told the IRS that the filing taxpayer "elected" to be within the SUB-CLASS of "United
 States citizen" with a federal domicile. This is an election, and one which gives the Congress exclusive legislative control
 over you. However, this in no way diminishes the locality of where the Federal Income Tax applies -- rather, the issue is
 ONLY about the status of the taxpayer.

Keep in mind still that if you were a "United States citizen" with a domicile in one of the 50 states, you were a "nonresident alien" for Federal Income Tax purposes, and a simple "No" was all that was required to preserve that legal status, as both a "United States citizen" and a "nonresident alien" were both required to use this form. But HOW these two classes of individuals are taxed is a very different matter, and one that matters VERY, VERY much.

INSTRUCTIONS FOR INDIVIDUAL RETURN

1. PERSONS REQUIRED TO MAKE A RETURN OF INCOME.

An income tax return must be filed by every citizen of the United States whether residing at home or abroad, and every person residing in the United States, though not a citizen thereof, whose gross income for the taxable period 1921 amounted to \$5,000, or whose het income amounted to-----

(a) \$1,000 if single or if married and not living with husband or wife. (b) \$2,000 if married and living with husband or wife.

If the combined net income of husband, wife, and dependent minor children equalled or exceeded \$2,000, or if the combined gross income of husband, wife, and dependent minor children equalled minor children equalled or exceeded \$5,000 all such income must be reported on a joint return, or on separate returns of husband and wife. If single and the net income, in-cluding that of dependent minors, if any, equalled or exceeded \$1,000, or if the gross income equalled or exceeded \$5,000, a return must be filed. A minor, however, having a net income of \$1,000 or \$2,000, according to the marital status, or a gross income of \$5,000,

must file a return. Under each of the above conditions, a return must be filed even though no tax is due. Note especially instruction 8, "Credits for Personal Exemption and Dependents." In the case of husband and wife whose combined net income exceeds \$5,000, Form 1040 (not Form 1040 A) should be used for separate returns, even though the income on one or both returns is less than \$5,000.

The income of a minor or incompetent, if derived from a separate estate under control of a guardian, trustee, or other fiduciary, must be reported by such legal representative. Income of $\langle a \rangle$ estates of decedents before final settlement, $\langle b \rangle$ trusts, whether created

by will or deed, for unascertained persons or persons with contingent interests; or income held, or which under the terms of the will or trust may be held, for future distribution, is taxed to the fiduciary as a single person, except that from the income of a decedent's estate there may first be deducted an amount properly paid or credited to a beneficiary. If the net income of a decedent from the beginning of the taxable period to the date of his death was \$1,000, if unmarried, or \$2,000, if married and living with husband or wife, or if the gross income was \$5,000 or over, the executor or administrator shall file a return on form 1040 or 10404 for such decedent

return on Form 1040 or 1040A for such decedent.

2. PERIOD TO BE COVERED BY RETURN.

Your return must be filed for the calendar year ending December 31, 1921, or for the fiscal year ending on the last day of any month other than December. The dates on which the period covered by the return begins and ends, if other than a calendar year, must be

plainly stated at the head of the return. You were required to file your return for 1918 on the basis of your annual accounting period. Having established an accounting period for 1918 this period must be adhered to for subsequent years, unless permission was received from the Commissioner to make a change. In the case of a return for a period of less than one year, the net income shall be placed on an annual basis by multiplying the amount thereof by twelve and dividing by the number of months included in such period; and the tax shall be such part of a tax computed on such annual basis as the number of months in such period is of twelve months.

3. ACCRUED OR RECEIVED INCOME.

If your books of account are kept on an accrual basis, report all income accrued, even though it has not been actually received or entered on the books, and expenses incurred instead of expenses paid.

If your books do not show income accrued and expenses incurred, report all income received or constructively received, such as bank interest credited to your account, and expenses paid.

4. INSTALLMENT SALES.

If you have used the installment method in computing income from installment sales you must attach to your return a schedule showing separately for the years 1918, 1919, 1920, and 1921 the following information: (a) Gross sales; (b) cost of goods sold; (c) gross profits; (d) percentage of profits to gross sales; (e) amount collected; (f) gross profit on amount collected.

5. ITEMS EXEMPT FROM TAX.

The following items are exempt from Federal income tax and should not be reported, unless it is desired to establish a net loss, in which case see Section 204 of the Revenue Act of 1921:

(a) The proceeds of life insurance policies paid upon the death of the insured;
(b) The amount received by the insured as a return of premium or premiums paid by him under life insurance, endowment, or annuity contracts, either during the term or at the maturity of the term mentioned in the contract or upon surrender of the contract;

the maturity of the term mentioned in the contract or upon surrender of the contract; (c) Gifts (not made as a consideration for service rendered), and money and property acquired under a will or by inheritance (but the income derived from money or property received by gift, will, or inheritance is taxable and must be reported); (d) Interest upon (1) the obligations of a State, Territory, or any political subdivision thereof, or the District of Columbia; or (2) securities issued under the provisions of the Federal Farm Loan Act of July 17, 1916; or (3) the obligations of the United States or its possessions; or (4) bonds issued by the War Finance Corporation. In the case of obliga-tions of the United States issued after September 1, 1917 (other than postal savings cer-tificates of deposit), and in the case of bonds issued by the War Finance Corporation, the interest is exempt only if and to the extent provided in the respective acts authorizing the issue thereof as amended and supplemented by Section 1328 of the Revenue Act of 1921, and should be excluded from gross income only if and to the extent it is wholly 1921, and should be excluded from gross income only if and to the extent it is wholly exempt to the taxpayer from income, war profits, and excess profits taxes;

) Amounts received through accident or health insurance or under workmen's compensation acts, as compensation for personal injuries or sickness, plus the amount of any damages received, whether by suit or agreement, on account of such injuries or sickness; (f) Amounts received as compensation, family allotments and allowances under the provisions of the War Risk Insurance and the Vocational Rehabilitation Acts, or as pen-

7. FARMER'S INCOME SCHEDULE.

It you are a farmer or a farm owner renting your farm out on shares and keep no books of account, or keep books on a cash basis, obtain from the Collector, and attach to this return, Form 1040F, Schedule of Farm Income and Expenses. Enter the net farm income as Item 5, page 1 of the return. If your farm books of account are kept on an accrual basis, the filing of Form 1040F is optional. Report income from salaries, interest, rents, sales of property, etc., in Items 1 to 7 of the return.

8. CREDITS FOR PERSONAL EXEMPTION AND DEPENDENTS.

If you were married and living with your husband or wife or were head of a family on the last day of your taxable period, you may subtract from your net income on Form 1040, before calculating your normal tax, an exemption of \$2,000, plus \$400 for each person (other than husband or wife) under 18 years of age or incapable of self-support because mentally or physically defective, who was receiving his chief support from you on that date; but in no case shall the tax, computed with an exemption of \$2,000, exceed the tax, which would be payable if the exemption were \$2,500, by more than the amount of the net income in excess of \$5,000. If husband and wife make separate returns, the exemption of \$2,000 may be claimed by either (but not by both) or may be divided between them, but the credit of \$400 for each dependent may be claimed only by the person furnishing the chief support.

If you were not married or did not live with husband or wife and were not head of a family on the last day of your taxable period, you are entitled to a personal exemption of \$1,000 plus \$400 for each dependent person under 18 years of age or incapable of self-support because mentally or physically defective, who was receiving his chief support from you on that date.

An exemption of \$1,000 may be claimed in cases where Form 1040 is filed for estates in process of administration, or with respect to income held for future distribution.

If by reason of a change in your accounting period a return is filed for part of a year, the personal exemption and credit for dependents may be claimed in accordance with

your status on the last day of such taxable period. (See also Instruction 2 on this page.) A "head of family" is a person who actually supports one or more persons living in his (or her) household, who are closely related to him (or her) by blood, marriage, or adoption.

9. AFFIDAVIT.

The affidavit must be executed by the person whose income is reported unless he is a minor or incompetent, or unless he is ill, absent from the country, or otherwise incapaci-tated, in which case the legal representative or agent may execute the affidavit. A minor, however, making his own return must execute the affidavit. The oath will be administered without charge by any collector, deputy collector, without charge by any collector, deputy collector, deputy collector,

or internal revenue agent, or (if you are in the military or naval service of the United States) by any military or naval officer who is authorized to administer oaths for purposes of military or naval justice and administration. If an internal revenue officer is not avail-able, the return should be sworn to before a notary public, justice of the peace, or other person authorized to administer oaths.

10. WHEN AND WHERE THE RETURN MUST BE FILED.

If the return is for the calendar year 1921, file it with the Collector of Internal Revenue for the district in which you live or have your principal place of business, on or before March 15, 1922. If for a period other than the calendar year, the return should be filed on or before the 15th day of the third month following the close of such period. In case the taxpayer had no legal residence or place of business in the United States, the return should be forwarded to the Collector of Internal Revenue, Baltimore, Md. The total tax much be paid at the time of filing the return.

The total tax may be paid at the time of filing the return, or if not so paid, one installment must be paid and the balance may be paid in installments, or in full, on or prior to any subsequent installment date referred to above. Failure to pay any installment on the date fixed by law makes the taxpayer liable for the payment of the balance of tax due upon notice and demand by the Collector.

12. PENALTIES.

For Making False or Fraudulent Return.

And so the ruse continued for decades. It was all just simply a matter of knowing who you were under the law, and declaring the proper status. But then, the transformation would continue. In 1967, nearly a generation after the truth about State Citizens' "nonresident alien" tax status had been effectively buried, the Treasury introduced Form 1040NR.

If one wanted to make known his "nonresident alien" tax status to the United States Treasury for Tax Year 1967, a "taxpayer" would have to submit this form. Otherwise, a Form 1040 would be a tacit admission under penalty of perjury of a federally-domiciled tax status.

For that remnant of the American population who may have partially understood this, a conundrum followed. The IRS deals only with taxpayers -- not non-taxpayers. Thus, if a person had ever filed Form 1040 as a taxpayer, there was NO POSSIBILITY of claiming a "nonresident alien" non-taxpayer status without FIRST filing a tax return as a taxpayer utilizing Form 1040NR. Failing to do that caused a person's tax status to remain on file with the IRS in the status that was established from the previous year (U.S. person). To unlock a non-taxpayer status, a "U.S. person" must FIRST file a tax return as a "nonresident alien" TAXPAYER. To wit:

- 15 26 C.F.R. §301.6109-1(g)(1)(i)
 - (g) Special rules for taxpayer identifying numbers issued to foreign persons—

(1) General rule— A social security number is generally identified in the records and database of the Internal Revenue Service as a number belonging to a U.S. citizen or resident alien individual. A person may establish a different status for the number by providing proof of foreign status with the Internal Revenue Service under such procedures as the Internal Revenue Service shall prescribe, including the use of a form as the Internal Revenue Service may specify. Upon accepting an individual as a nonresident alien individual, the Internal Revenue Service will assign this status to the individual's social security number.

Once a "nonresident alien" TAXPAYER status is established, then and ONLY then can one submit a W-8 without an SSN (if appropriate), and become a non-taxpayer. Again, that's if it's appropriate. Government payments are ALWAYS subject to the tax regardless of your tax status.

Of course, one must also change their status with the SSA from "U.S. Citizen" to "Legal Alien Allowed To Work" pursuant to 20 C.F.R. §422.110(a). But this is a different matter that is beyond the scope of this exhibit.
